

# COVID-19 IMPORTANT NOTICE

To all of our valued customers:

During these challenging and unique times, Northern Gases and Supplies is committed to providing your essential business with the welding, safety and gas products that you require. We will continue to operate as an essential business to the critical trade and infrastructure industry.

Our main office and retail location in Pierceton will be open for business to essential and critical trades. Our weekly deliveries will still be operating to support the supply of our customers.

Due to the safety and health of our employees we have temporarily closed our Warsaw location until April 7<sup>th</sup>. All business will be conducted through the Pierceton location.

Please call our Pierceton location at 574-594-2551 for questions or to place an order for pick-up or delivery. Our hours have remained the same at this time: Monday-Friday 8am-5pm

If you visit our store in Pierceton, we ask that you call ahead whenever possible so we can have your order ready when you arrive. We ask that you respect the social distancing recommendations as well, for the health and safety of our employees and other customers. We've ramped up cleaning in our facility, limited access inside our warehouse and offices.

For the businesses receiving deliveries, we have changed our protocol for signatures on shipping paperwork to comply with CDC recommendations during this time. The driver making the delivery will ask the first and last name of the person receiving the cylinders and/or hardgoods to write on the signature line and will continue to leave the copy of the shipper for your records.

**If you have questions, please feel free to contact our office at 574-594-2551.**

Thank you for your continued support through these unprecedented times. Please be safe and stay healthy. We're all in this together.
